

Splash! Match the Fish to Their Colour

A first colour matching game for little hands.

Ages 2 to 5

6 bright colours

Print and play

BEEP BOOP! Six fishbowls and lots of little fish.
Can you pop each fish in the bowl of the same colour?

How to play, and a note for grown ups

BEEP BOOP! Hello little one. I am DiGi. Print the fish and pop them out. Then find the bowl that is the same colour as each fish. Red fish to the red bowl, blue fish to the blue bowl. Say the colour out loud with me as you go. Ready? Let us splash!

SETTING IT UP

Print the pages and cut out the fish along the dashed lines. Big scissors for grown up hands. Laminate the fish and the bowls if you want them to last, then play again and again. Nothing else to buy.

HOW TO PLAY

Spread the six bowls out. Give your child one fish at a time. Name the colour together, then find the bowl that matches. When every fish is home, the tank is full and the colours are sorted.

A NOTE FOR GROWN UPS

Colour is one of the very first sorting skills. Before children can count or read, they group the world by what looks the same. Matching a red fish to a red bowl is real early maths, quietly at work. Play alongside your child rather than testing them. Name each colour out loud, go slow, and let them place the fish themselves. If a fish lands in the wrong bowl, that is part of learning. Just say the colour again warmly and try together. Celebrate the match, not the speed.

THE SIX COLOURS IN THIS PACK

Red

Orange

Yellow

Green

Blue

Pink

Line up the bowls

Set these bowls out where your child can reach them. Each bowl has one colour and its name. Match every fish to the bowl of the same colour.

Line up the bowls

Set these bowls out where your child can reach them. Each bowl has one colour and its name. Match every fish to the bowl of the same colour.

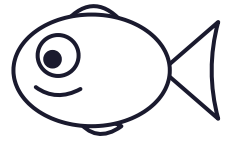

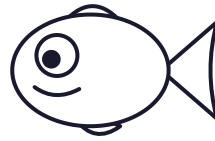

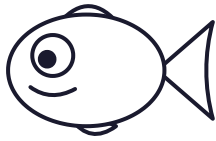

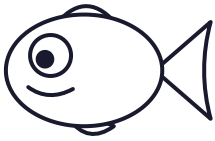

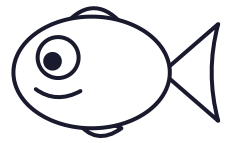

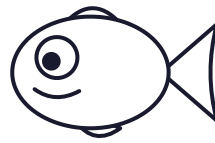

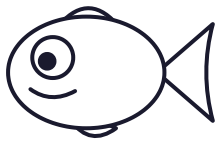

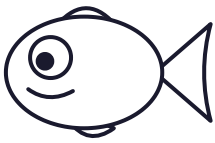

Pop out the little fish

Cut along the dashed line around each fish. A grown up job. Then let your child match them to the bowls.

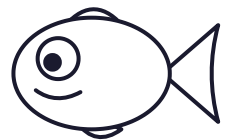

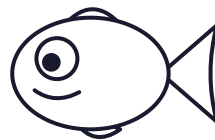

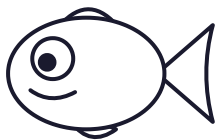

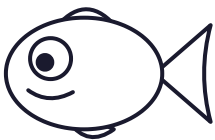

☐ Red fish

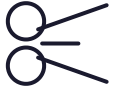

☐ Orange fish

☐ Yellow fish

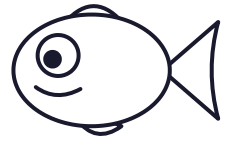

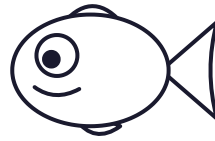

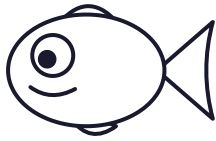

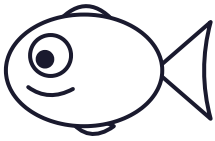

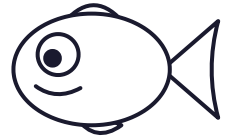

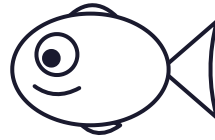

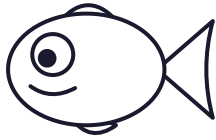

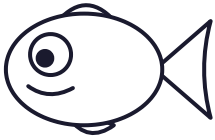

Pop out the little fish

Cut along the dashed line around each fish. A grown up job. Then let your child match them to the bowls.

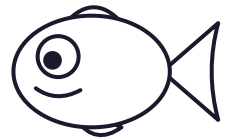

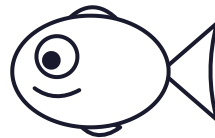

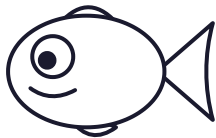

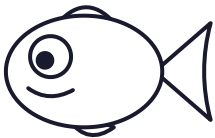

☐ Green fish

☐ Blue fish

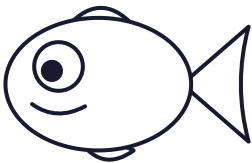

☐ Pink fish

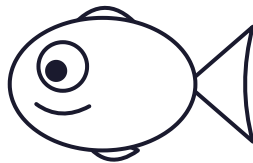

Colour your own fish

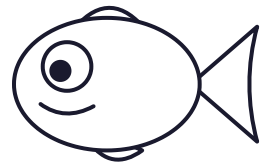

BEEP BOOP! These fish have no colour yet. Colour each one to match its little dot, then pop it in the bowl of the same colour. Six fish, six colours, all up to you.

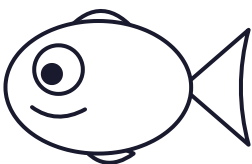

Colour red

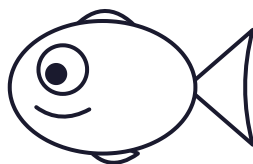

Colour orange

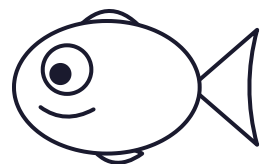

Colour yellow

Colour green

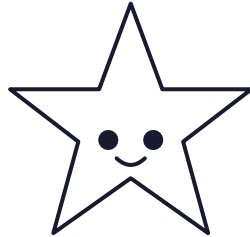

Colour blue

Colour pink

A FREE BONUS FOR YOUR LITTLE ONE

You matched every colour. Here is the next game, free.

Loved sorting the fish? DiGi has a free **Shapes and Colours Splash Pack** waiting for you, with big friendly shapes to match the very same way. It is our thank you for printing this one.

Made by Guided Childhood, the UK platform helping families raise confident kids in a digital world. If your little one loved this game, a kind review on Etsy helps another family find it. Thank you.

DiGi's colouring tips

BEEP BOOP! In this edition the fish and the bowls are ready for you to colour. Take your time and make each one bright. Here is how I like to do mine.

COLOURS TO TRY

Colour a red fish for the red bowl, a blue fish for the blue bowl, then green, yellow, orange and pink. Match each fish to a bowl the same colour. That is the whole game, and you make the colours yourself.

PRESS LIGHTLY FIRST

Start soft. Lay down a gentle layer of colour, then go over it again to make it richer. Light to strong always looks better than pressing hard, and it never tears the paper.

BIG SHAPES FIRST

Colour the big round bowl first, then the fish, then the little pebbles and bubbles. Big to small keeps your page tidy and your hand relaxed.

STAY IN THE LINES, GENTLY

Follow the bold black outlines and slow down at the edges. If you wander over a line, no worry at all. Your page, your rules.

ONE MORE THING

Colour a fish and its bowl in the very same colour so they are easy to match. When every fish has a home, your tank is full and bright. Brilliant work, little one.
