TWO MINUTES BEFORE YOU START

How to play, and the grown up guide

Detective, we have a case to crack. Eight workers have lost the words for their jobs. Clap out the beats in each job, build the word from its syllable tiles, then work out where each worker goes and what they hold. Trust the clues, take your time, and every case gets solved.

1 · CLAP THE SYLLABLES

Say each job out loud and clap once for every beat. BA KER is two claps. VET is one. Clapping helps young readers hear the parts of a word before they read it.

2 · BUILD THE WORD

Cut out the syllable tiles on each job card along the dashed lines. Push them together in order to make the whole word, then write it in the letter boxes.

3 · MATCH THE WORKER TO THEIR PLACE AND THEIR TOOL

Each card shows where the worker goes and one tool they use. Talk about it together. A baker works at a bakery and holds a rolling pin. A vet works at an animal clinic and holds a bandage. Then the big matching page brings all eight together in a mixed up order to solve.

GROWN UP TIPS

Read it together. For younger detectives, clap and say the words with them and let them slot the tiles. For older ones, hand it over and let them cut, build and match on their own. Praise the effort of sounding a word out, not just getting it right. Laminate the pages and use a dry wipe pen so the mission plays again and again.
