The Road to 16 Board Game

A family board game from age 4 to 16, hosted by DiGi.
Jobs earn stars, stripy squares rest, and every card is a real choice.

60 square board

48 choice cards

5 Planet Friend counters

40 star tokens

How to play

You need: the board, a dice, a counter each, the star tokens, and the choice cards in five piles, one for each Friend.

1 Start on square 1, with Pebble

The youngest player goes first.

2 Roll the dice and move

Follow the gold road up the board.

3 See where you landed

? Choice card
Someone reads you a card from your Friend's pile. Right answer? Take a star. Not sure? Read the answer out loud. Nobody loses anything.

Job
Take the stars shown on the square.

Family job
Pick another player and move them forward 2. No stars: helping at home is part of being a family.

Stripy square
Screens rest here. You cannot spend stars while you are on it.

4 Star time

Before you roll, you can pay 2 stars to roll twice and add them up. Not on a stripy square.

5 The first to 16 wins

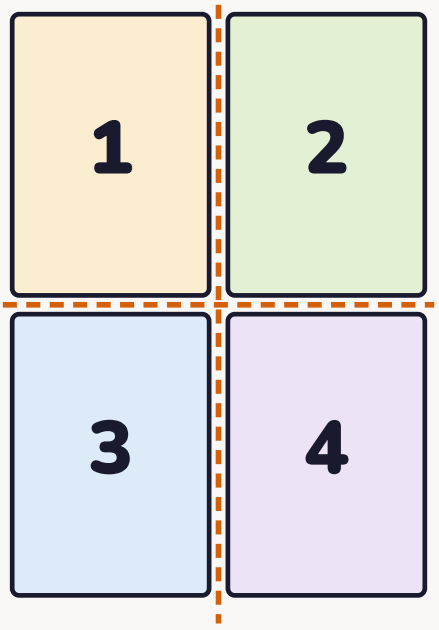

You do not need an exact roll. Keep going until everyone is home. The most stars picks the next game.

FOR THE GROWN UP · TEN MINUTES WITH TAPE

Making the board

The board is four A4 sheets, pages 4 to 7, that tape into one big board twice the size of A3. Or print the separate A3 file in the download on one sheet, if your printer takes A3.

1 **Print pages 4 to 7**
Full size, no scaling. Thick paper holds up best.

2 **Trim the inside edges**
Each sheet has a dashed trim line on the edges that meet the others. Cut along it to lose the white printer border.

3 **Line up and tape**
Sheet 1 top left, 2 top right, 3 bottom left, 4 bottom right. Follow the gold road across the joins and tape on the back.

Make it last. Glue the taped board onto a flattened cereal box or a sheet of card, and it folds in half to store.

The rest. Page 8 is the counters and star tokens. Pages 9 to 16 are the 48 choice cards, six to a page, and page 17 is their backs, to print on the reverse if you want. Keep the cards in five piles, one per Friend.

Younger players can be read their cards. Older players read for them. Everyone plays the same board.

FOR THE GROWN UP · AFTER THE GAME

The real road to 16

The five zones on the board are the five stages Guided Childhood uses to get a child to sixteen ready for a phone and social media, ten minutes a day, with you beside them. Every choice card is a real question from one of its lessons.

Pebble · ages 4 to 7
First relationships with technology, before habits form.

Bloop · ages 8 to 10
Building digital habits before the algorithm learns them.

Orbit · ages 11 to 12
The algorithm conversation before social media.

Nova · ages 13 to 15
Identity and digital footprint while the relationship still holds.

Cosmo · 16 and up
Real digital independence before they leave home.

THE RULES ARE THE APP'S RULES

Jobs earn stars. Family jobs earn none, because helping at home is part of living there. Stripy squares are protected time that no star can buy: bedtime, meals and school. A wrong answer costs nothing, because telling and trying should never be punished. If the game starts a question at home, that is the conversation worth having.

WHERE IS YOUR CHILD ON THE ROAD?

What stage is your child? Three questions, no sign up. The stage check is free at guidedchildhood.com.

THE GUIDED CHILDHOOD PASSPORT

Your Passport stickers

The Road to 16 Board Game belongs on the Pebble, Bloop or Orbit page, under the doing, whichever stage your child is on, in the Guided Childhood Passport. When your family has played it, cut out the sticker for your stage and stick it on. The big one fits the stage page and the small one fits the fold out passport.

PRINT THIS PAGE ON STICKER PAPER, OR ON PLAIN PAPER WITH A GLUE STICK

No Passport yet? Look for the Guided Childhood Passport in the same Etsy shop: five stage pages for ages 4 to 16, each one stamped when the talk, the doing and the check are done.

A FREE GIFT FOR YOUR FAMILY

As a thank you, the full Guided Childhood Starter Pack is yours free: the star chart, the jobs that earn the stars, and a whole booklet of things to do away from a screen. Pop your email in at the address below and it is yours.

guidedchildhood.com/etsy-bonus
